Highwayrobbery.net's note regarding the 2017 annual report received from Metro on 5-11-18

5-11-18

For Mr. Miranda:

Earlier today I received the 2016 and 2017 red light camera annual reports I requested previously, and those reports show an almost fourfold increase in straight through violations in 2017 while my estimates, published online in the spreadsheet on my website highwayrobbery (dot) net, show a decrease due to the inactivity of some cameras in the Valley. Would you please ask your vendor to check their figures?

I would still appreciate hearing from you about the other items mentioned in my Nov. 13 email, copy below.

Regards,

Jim

7-21-18

For Metro RMC:

This is a brand new request for records.

R. In May you sent me two annual reports (one is attached as an example) which included totals of red light camera tickets by movement (left, right, straight).

This request is for the source document(s) Metro staff or vendor staff used to compute the totals by movement published in those annual reports.

Thank you,

Jim

On 9-17-18 Metro responded:

"This is the response I received from our vendor:

"The source for the 2016 and 2017 annual reports created for the Judicial Council is our citation database. We do not have an automatic report that generates the citations by movement so this report has to be pulled together manually. The database is not available to the public since it contains personal citation information. The 2018 report can be provided to you after it is produced in January 2019. It will be provided to the Judicial Council as required by Vehicle Code 21455.5.

Therefore, there is no annual report at this time.'

You may contact me at [----]@metro.net if you have any questions related to this public records request."

Sincerely,
RIM Analyst

To remain in compliance with California Vehicle Code 21455.5 (i) Redflex Traffic System and our contracted Government Agency has produced this report for the Judicial Council for the calendar year 2017:

Government Agency:

Montebello Police Department

The number of alleged violations in 2017 captured by the PE equipment they operate:

16,058 Total captured

The number of citations issued in 2017 by a law enforcement agency based on information collected from the automated traffic enforcement program:

16,058 Citations filed with the Court

For citations identified in paragraphs (2), the number of violations that involved traveling straight through the intersection, turning right and turning left (if known)

Straight: 3,532

Right: 10,709

Left: 1,817

The number and percentage of citations that are dismissed by the court:

394 (2%)

The number of traffic collisions at each intersection that occurred prior to, and after the installation of, the automated traffic enforcement program:
