**Subject:** Update on Red Light Camera installation

Hi Sharon, wanted to provide you an update in the progress installing the cameras in the city. Robert Ortega is in town this week again.

**Santa Monica & La Brea**

Both the NB and EB directions are installed.

We discovered the electrical service in the planter we tied into is only active at night. Susana from LA Signal emailed you for assistance about this earlier today.

**Beverly & Robertson**

Both the EB and WB direction are installed.

**La Cienega & Melrose**

All hardware is installed both NB and SB.

Awaiting Edison update for placement of power pedestals.

**Fountain & La Brea**

Rear camera for NB in complete.

Front camera for NB will hopefully be completed tomorrow.

Front camera for SB is next to be installed.

For the SB rear camera we're awaiting an extension arm we ordered from Hollywood Welding so the camera can see around the trees.

Thank you

Regards,  
Rich Kosina

**Subject:** La Cienega & Melrose

Robert,

I just got off the phone with SCE Planner, Serhat Atay. Based on the date he received the paperwork from Rich on April 25th, He gave me the design due date of July 11th for the drawings or can be sooner but no later than 7/11/16. The design process takes up to 12 weeks.

He said once he has updates he will let me know.

*Thank you,*

Hi Susana,

I was going to ask you if you had any updates on this. Rafael told me he was waiting on Edison to schedule a walk through to determine the location they need us install the pedestals. Is there something you need from us?

Robert

**Subject:** RE: (External):City of West Hollywood- Service Pedestal Plan for La Cienega Blvd. at Melrose

Hi Eric, combining your exact locations and the plans from Serhat at SCE can I move forward in hiring a contractor and applying for a permit with the City? This would mean proceeding with construction using Serhat's preliminary design. After work is complete, I would have Crain provide final as-builts.

I would like to put the job out for bid to Comet, Dynalectric, and Steiny, besides La Signal.

Rich

**Subject:** RE: (External):City of West Hollywood- Service Pedestal Plan for La Cienega Blvd. at Melrose

Hi Serhat,

The following street addresses were issued for the service pedestals:

- 540 ½ La Cienega Blvd, West Hollywood, CA 90048 (service pedestal South of Melrose Ave)
- 611 ½ La Cienega Blvd, West Hollywood, CA 90069 (service pedestal North of Melrose Ave)

Call or email me, if you have any questions.

Thanks,

**Subject:** Service Pedestals on La Cienega Blvd/

Great news...Edison has notified the City that they will be energizing the two service pedestals on La Cienega Blvd on December 6th. These pedestals will supply power to the two rear cameras on La Cienega Blvd at Melrose Ave.

We are finally moving forward with the program.
